D/No	Minutes

Subject: **Information Report - Utilization of Scarp Monitoring Organization-2 (SMO) Building, Hyderabad**

1. It is intimated that Scarp Monitoring Organization (SMO) was established in 1968 which are divided in two sections i.e SMO-1 at Lahore and SMO-2 at Hyderabad.

2. The SMO-2 office is spread over approximately 1 x acre and comprises 14 x rooms, 3 x garages and 1 x parking shed. At present, SMO-2 remains under the administrative control of SMO-1 Lahore. Equipment is lying locked inside the premises. Only 2 x employees, 1 x watchman and 1 x laboratory attendant (who is also performing watchman duties) are currently posted at the facility. Vehicles, chemicals and other equipment are deteriorating due to prolonged non-utilization. Relevant photographs are placed at (**F/A**). Detail is as under:-

   a. Although SMO-2 is administratively under the control of GM (Central), the building is physically located within the premises of GM (South). Historically, SMO-2 was responsible for operational coverage of Sindh and Balochistan.

   b. The office was tasked with monitoring groundwater levels in waterlogged and salinity-affected areas, conducting soil testing, advising landowners on installation of tube wells and executing projects in coordination with the Provincial Agriculture Department under WAPDA.

   c. Following the 18th Constitutional Amendment (April 2010), the agriculture sector was devolved to the provinces. Consequently, SMO-2 ceased to receive new projects. The remaining contracts concluded in December 2023, and the staff was subsequently transferred.

3. **Comments / Recommendations**

   a. Serviceable and usable equipment may be shifted to SMO-1 Lahore to prevent further deterioration and ensure optimal utilization.

   b. The building may be formally handed over to GM (South), in whose premises it is located, for administrative clarity and better upkeep.

   c. Alternatively, the building may be rented out (e.g. to HESCO) to generate revenue for WAPDA, subject to approval of the competent authority as apparently not needed by GM (South).
